1. Negative news traces have up little to comment upon at this time. We have however received a report from our Liaison Office located at 570 Westmoreland, West One Lane (Irish name) (the name is identical with the first name reported in HLE 070) it seems to GIC and that they have considerable information on this person. We are covering GIC and will advise you contact. Meanwhile, if you have any additional information which we could use for identifying purposes, please advise.

2. The visit HANAU paid to the BELTHER offices could conceivably be a preliminary effort on the part of the GIC to gain information on suspected activities of BELTHER in the East Zone.

3. We suggest that if HANAU again returns to BELTHER offices to be interviewed in detail and within the limits of security so as not to alert him to any particular interest we may have. We recommend particular emphasis be given to:

- a. HANAU's home files and background.
- b. Contacts and associates in the West Zone and East Zone.
- c. Means of support.
