TO Chief, SK mro Chief, EE; Chief of Station, Germany	Piede Tile F1 Zeyy	
Chief of Base, Humich) 1550	2 May 1960	
REDWAL/REDAKIN/ABBULS TEH-1 Progress Report	RE: "43.3" — (CHECK "X" ONE) MARKED FOR INDEXING X X NO INDEXING REQUIRED	
Action RESUMED None; for your information	ENDEXING CAN BE JUDGED BY QUALIFIED HQ. DESK COLLY	

As mentioned herein.

1. Since the last report on ARBULDThis-1 (see KOMA 38972, dated mber 1958), AEBOLSTEN-)'s activities have been redirected (see MGM-47001, 26 January 1960) from LCIMPROVE activities to duties as a spotter and assessor in the MLDSKIN field. He has visited the United States in summer 1959 when he was processed for a promotion in his organisation and when he underwent processing for obtaining United States citisenship.

Developments

2. When the undersigned's duties at Munich Base were changed from LCDPHOVE to PI, rather than terminating AEBOLiTEK-1 it was decided to consider him for a possible REDSKIN mission. However, Headquarters disapproved the proposal (see ERM-7476, 17 March 1959) and we directed Subject's efforts toward spotting in the MEDSKIN field. He was also considered for spotting, using a group of used tting informents from the local emigre community (primarily the AEDHORDERS), at LCOUTBOURD. However, due to changes at Subject's office, he was sent by his organisation to the United States, where he was appointed head of UNARC in Europe. While in the United States, he applied for United States citizenship which he has wanted for a long time. (See HUNI bi22, May 1959.)

3. In spring 1959, he joined a group of emigres who invested capital in the Otto KC-AK (aka Volodymyr KCZAK) Aral filling station. (The other investors in the enterprise are AECASSONARY-3, Atmos FIGOL and KCZAK.) AEBOLSTER-1's share in the investment was DMs 10,000, the bulk of which he was forced to borrow. He was the executive-administrator leader of the group for several months shortly before his departure for the United States. Since then, as the result of his new UUARC appointment, he has given only part-time attention to the investment (the group's station also serves as a sales outlet for motor bikes and a small automobile, MSU Prins).

h. AEBOL-TEH-1 provided evidence regarding his spotting shilities during the performences of the Veryovka Chorus in Munich during October 1959. He himself established contact with VERTOVKA and wife and two mbers of the group. One of his unwitting informants, Ivan CHOR MIY, established contact with a number of the chorus members and AEBOLSTER-1 sent CHORNIY to Stuttgart where he continued development of some of them. ARBOLSTEN-1 also elicited from other local emigree regarding their contacts and will debrief another emigre who studied voice with VENTOVIA in the Ukraine. A full report will be submitted as soon as possible, together with other suggestions and ideas regarding the use of ARROLSTER-1. In the meantime, we forward as attachment A for Head-quarters information the report of contact with ARROLSTER-1, dated 29 April 1960, which provides some detail regarding contacts of Subject and his informants with the Veryovka Chorus.

co .)

1. A-l said the following about his contact with various members of the Veryovka Chorus and regarding contacts with the chorus of other local Ukrainian emigres.

A. A-l will write up his information and will pass it to Lundquist at a later date. However, he said the following. He met VERTOVKA and wife (the latter, about 58-60 years old, is also a director of the choir) and two other members of the choir. He has autographs of all three people, but he passed the program, on which the autographs appear, to Mrs. KO/AK who will return it in the near future. VERYOVKA is described as ca 65-68 years old, born in East Ukraine, now lives in Kiew. He is still a very vigorous and dynamic man and has traveled with the chorus in all cities of the UKSSR and the major cities of the KSFSR. A-l met them twice, for 10 and 15 minutes respectively while the chorus performed in Munich at the Bayaria Halle.

B. A-1 asked Ivan CHCRNIY (see 1894 file for data on him) to contact the chorus independently and CHORNIY apparently achieved some success. CHORNIY wrote a report of his contacts which A-1 will get and lend us for copying. CHORNIY developed one contact so well that they were on Du terms before the choir left Germany. A-1 also sent CHORNIY to Stuttgert where the choir performed and he did a seemingly bang-up job there. CHORNIY got one of the choir members to write his name and true address under the following circumstances. The pertinent choir member said that his wife had appeared in Paris with still another chorus from the UkSSR and that the performance in Faris was recorded. He asked CHORNIY to procure a copy of the recording and have it mailed to the address he gave IC if he couldn't get the record to him while he was still in Germany. CHORNIY procured the recording, passed it to A-1 who, in turn, passed it to the UUARC representative in Hamburg, Dr. Bobdan BILINESYICH. The latter, in turn, contact the Uke choir member when the chorus performed in Hamburg and passed him the recording. In cases where addresses were obtained (of choir members in the Ukraine), A-1 and his local compatriots were asked not to write to the choir members except for a greeting card on holidays. A-1 and friends were asked that if they wanted to write otherwise, they should send the mail in care of the Ukrainian National Chorus in Kiev.

NOTE: The Veryovka Chorus members said that the choir was scheduled to perform in Canada during September or October 1960.

C. Mrs. Olena YURCHENKO, who works with AmComLib in Munich, and is an East Ukrainian, contacted the chorus and discussed it generally with A=1. Since he did not have time to listen to the complete detailed story, she mentioned that she are days later she presented him with the was kidding and left, but several days later she presented him with the attached typewritten description of her contacts with the chorus. PASICHNYY, mentioned in the report as the impressario of the choir from the Ukraine, is identified by A=1 as Mykhaylo PASICHNYY.
