	<p>23-27 All of the above personnel were the same except V-Man @VOLKERT (Training @VILLER) and V-Man @TEGEL (Training @TISCHLER) were substituted for @GOTE.</p> <p>(NOTE: Physical descriptions of V-Men attached.)</p>																										
	<p>3. Personnel were quartered on the economy and schooled in UJLENTIL facilities in Munich. They approached the training area by other than the conventional access roads, parked their vehicles in remote areas and entered the military area afoot.</p>																										
	<p>4. Air Support (See reference):</p> <p>a. Missions #1 and #2 were postponed from 21 to 22 September due to weather conditions. Mission #1 was then flown at 1205-1215 and 1225 on 22 September. Since the UPHILL agent personnel had to depart Munich that afternoon, Mission #2 was cancelled.</p> <p>b. Missions #3 and #4 could not be flown on 26 September due to mechanical failure of the airplane, but were flown on 27 September. Mission #4 was advanced to 2030 hours in order to permit plane to return to home base before weather closed in.</p> <p>c. All drops were made on schedule with excellent results except Mission #4. On the first approach for this last mission, the aircraft was observed flying from North to South at 2030 hours approximately one mile west of DZ. At 2045 the aircraft came in on a correct heading and executed an excellent drop.</p>																										
	<p>5. When and if further missions are required in the Munich area, it is contemplated requesting that air support base the aircraft at Oberschliessheim Army Air Port where cargo can be loaded and mission flown in a matter of minutes. Alejos</p>
