AGENT'S CRYPT	CAFIGHT-2	TO	11 Feb 71	DATE OF	19 Nov 50

CASE OFFICER TIME	15 hours		(monthly)		(during period)

BACKGROUND AND ACCESS OF AGENT: CAFIGHT-2 (C-2) was recruited for use in the KOBIRD/CO field in 1958, in which function he served until contact was allowed to lapse in 1961. He was recontacted in 1964 and resumed his KOBIRD/CO activities. Since late 1969 his primary assignment has been against the local MHARSH presence, although he continues active in the KOBIRD/CO, [] and [] MHCHAOS areas. He is currently being groomed as a direct access agent, the ultimate target being CATROJANHORSE. He has developed a solid personal relationship to a local employee of a

TYPE OF AGENT COMMUNICATIONS: Hamburg MHARSH installation.

C-2 is met in a Base safehouse at pre-arranged times. Emergency contact is via Base ops phone.

TARGETING: (including OD citation)

Priority A I. Local MHARSH presence.

OPERATIONAL DEVELOPMENTS: (include security aspects and training)

C-2's expected EOD with a local agency of known MHARSH interest failed to materialize for reasons beyond his control; although qualified, he was pre-empted in favor of a civil-servant with long seniority. C-2 probably has legal grounds to take the matter to court, but we feel this is not necessary since his basic qualification will allow him other positions of interest in local agencies. Meanwhile, his relationship to a local employee of an MHARSH installation has deepened to one of personal trust, something we are attempting to parlay into an introduction to local MHARSHERS. Also during this period, C-2 established direct contact to [] senior TPFASST official in West Germany. While [] is interesting in his own

ACTION TAKEN PER PREVIOUS HEADQUARTERS REPORT: right as primary TPFASST target of COS, Germany, C-2's contact with him also enhances C-2 from an MHARSH point of view.

EVALUATION AND RECOMMENDATIONS:

FIELD: The very positive evaluation of the previous FISR remains valid. As Headquarters appreciates, it is a long road to groom an agent and bring him into natural contact with an MHARSH target individual. In C-2's case, this grooming has been in progress for some 18 months. We feel his progress has been commendable. At the same time, he has contributed significant [] areas [] valuable Base asset.
