CONTACTS WITH FASCIST GROUPS IN ITALY

In his capacity as IO to the Fascist Republican Party Source came into contact with R. VOLPINI's attempts to contact Fascist Groups in Allied Occupied ITALY. He was however not fully in the picture as to the success of those attempts nor of the efforts made prior to his appointment as IO to the Fascist Republican Party in Jan 45.

Source heard from DEL MASSA that the main Groups were located in the following areas :- ABRUZZI, UMBRIA, Campania, and APULIA. In addition there were known to be powerful Fascist elements in SICILY. Although Groups were known to be in existence in REGIO DEL MASSA, Source told Source that no direct contact had been established; he believed that they were very weak there and the extent of the organization was a great surprise to DEL MASSA when it was established in the Allied press after it had been broken up.

Source could provide more detailed information only on SICILY and FLORENCE. As far as SICILY was concerned the first concrete information was provided in Feb 45 by an 16 year old youth going under the cover-name of "Tito". "Tito" was interrogated by Source and DEL MASSA at 12 Via Mozart, MILAN. He stated that he belonged to a secret Fascist organization run by a student in PALERMO and that he had been sent North to establish contact with the Fascist Republican Party. He had crossed the Alps in the uniform of an Italian sailor having taken 11 days to reach BOLOGNA. He had been arrested by the Germans and handed over to the Russenkommando Bologna. There he had been kept in custody for six weeks before being interrogated; he was subsequently sent to MILAN. "Tito" stated that he only knew the names of the members of his own cell and the name of the organization under his cover-name. He told Source that the separatist movement in SICILY contained in its ranks many wealthy Sicilians and former Fascists and that the whole organization had a distinctly Fascist colouring. Nevertheless the separatists claimed to enjoy Allied approval and there was no doubt that the parties of the left were not far behind.

In mid Jan 45 DEL MASSA elaborated a plan for the reorganization of the Fascist Party in the FLORENCE area but it was not until the middle of March that action was taken and VOLPINI was nominated for the task. As far as REGGIO EMILIA was concerned after a month's delay there was apparently the prospect of a successful operation and his release had been arranged by DEL MASSA's personal intervention. Consequently he never returned on his mission.

... also intended, in agreement with PRINZING, HUBNER and ... of Fascist bands in the North and send them South to make ... in Fascist sympathisers in LOT. Sources only know of one of ... which was at ... strong and was headed by a man called ... To the best of his knowledge it never left for the South.

THE CABLJANCA TRAINING SCHOOL

The CABLJANCA training school was founded in Nov 43 to train Italian recruits for service with Abt III and VI of the Bds and to provide reliable guards for buildings occupied by the Bds and its subordinate units.

Source was given the task of dealing with all the organisational details necessary to get the school going. In this he was assisted by VISCONTI, the former Commander of the Italian Part Militia who proved to be a good organiser and of great assistance in the early stages although after when he was appointed OC of the School he left much to be desired.

The first recruits to the School were 30 - 40 men of the Part Militia provided by VISCONTI, and between Feb and Jul 44 some 180 - 200 men were assembled. A number of difficulties were encountered with the Fascist militia and the Italian Republican Army and with German units employing Italians because many Italians deserted to CABLJANCA in the hope that conditions would be better there than they were in their own units. The School was functioning properly by the end of May 44 and Source's task was finished.

According to Source, only very few of the men trained at CABLJANCA were used for Abt III purposes and he does not know of any employed by Abt VI. The great majority of them were used for guard duties only.
