REFERENCE: FJBA 9310 dated 5 April 1956

ACTION REQUIRED: Submission of Progress Report concerning POJACKPOT/1

1. We find that reference is the last progress report treating with the relationship between the (   ) Station and POJACKPOT/1. While we recognize that POJACKPOT/1's attractiveness has decreased with his return to private life, we feel that contact with him is sufficiently important to warrant regular reporting. We would appreciate a report including discussion of the following subjects:

   a. The extent of POJACKPOT/1's access to and influence over the governmental body with which he was formerly connected.

   b. The possibility of making use of POJACKPOT/1 in order to obtain introductions to newsmen who may be able to provide intelligence.

   c. The possibility of making use of the POBULK representative in Moscow (Identity A) for collection of information.

   d. The results of meetings with POJACKPOT/1 since April 1956.
