and the southern area under the management of FURUKAWA, Chief of the Electrical Communications Section. It has also been said that ex-navy office MAKINOTO fact who had formerly been engaged in deciphering American codes, is being temporarily exployed as a consultant. Ex-Lt. Colonel HINOSE Elichi, code expert and Cormer willtary aide to Minland, was formerly a member of ex-Colonel CKURO's special intelligence group. He is presently the temporary Chief of the Second Section Intelligence Squad, MSF.

Secause of opposition from various areas at the time of its inception, CRC has not as yet been able to form anything of consequence. However, according to a recent perort, the CATA plan is well-established. It is being said that exwners, WHINCEUTE Saisme ex-lision General YALANCE Yoshio, and YOSHIDA's advisor ex-1.sjor Jeneral (ACCULT Elichi) are secretly supporting IUMAI Jun under the rection of CGAT. This is a fairly possible conjecture. This special inteligence group of er-militarists bemoan the existing conditions by asserting that. "These wrivate organizations being formed by the various official agencies are no re afficient than ITSUHASFI's private wireless station. It is very disheartening feel that there may be countless others similar to 'ITSUHASHI's. We feel the ed to dispense with the sectism practiced by the various rinistries and to unite we activities on a rational scale." However, we must realize that CGATA's gestions cannot be accepted so readily. We must keep in step with the progress . on the defense issue. We must expect public criticism on the handling of cary and state secrets by the projected intelligence organ. No one can deter-- exactly what the future may bring.

If I Shift Shift Article includes Photo with caption "A Monitoring Station is lished Sithin a Sericultruist's Hut").
