Catherine,

Off the record, you are correct, this detail is not new. In terms of seeing the documents, you'll have to check with the White House. As you recall, we discussed several of the top-line points in the Ignatius piece with you, last year, in the months following the raid. If you need us to replay some of those comments for you, let me know. Jennifer G. reached out to us as well. Can you close the loop with her?

Thanks,
