TRACK II

A. Actions:

1. Presumably the attempt to kidnap General Schneider on Tuesday evening was aborted.
2. Lt. General Bennet advised ARMA that the decision to temporarily suspend MAP and FMS programs to Chile has been rescinded.

B. Accomplishments:

Headquarters requested that ARMA continue to assure General Valenzuela and others with whom he has been in contact that the USG support for anti-Allende action continues, and that the door will be open now or in the future in the event of new plans or developments.

C. Situation:

Since Valenzuela's group is apparently having considerable difficulty executing even the first step of its coup plan, the prospect for a coup succeeding or even occurring before 24 October now appears remote.
