UJ-DROLLERY General Progress Report

Ref.: EGL-A-3378; EGO-W-3931; MGL-A-10483.

With this communication we hope to initiate a monthly progress report on going Zipper UJ-DROLLERIES. We are not including in this report various "possibilities", which are in the preparatory stage, but have not yet ripened into reported UJ-DROLLERIES; we hope to be able to do so in the next report, incorporating latest information on embryo cases, as obtained from field visits to Zipper's field agencies. We do not know how you wish to record this data, so we have prepared it in the form of attachments suitable for filing in each individual case folder, if desired. An asterisk indicates that the case is "on ice", but not officially dead, i.e. it is subject to reactivation.

A. Counter-Espionage.

Total: 1

6. Yugoslav IS:

- a. UJ-DROLLERY # 378 (NARENITA)

(\*) There are indications that Zipper prefers to handle this as a liaison case, on a "special connection" basis rather than as a CE case.

- b. UJ-DROLLERY # 381 (HEINZ)

(\*) Although attached sheet reports the contact as broken off in Dec. '52; it was reactivated. "HEINZ" was visited by "Klaus" 23 Jan. '53.

- c. UJ-DROLLERY # 382 (OST)

This case, like # 302, suffers from the shortcomings of U/M's CE handling. Our efforts to improve U/M's handling continue, but the case will probably have to be dropped.

7. Rumanian IS(?)

Total: 3

- a. UJ-DROLLERY # 400 (ADALBERT)

It is not clear yet whether or not this French IS effort into which Zipper is taping will provide information on the Rumanian IS. The case is still in the initial assessment stage.

10. Political Intelligence:

a. UJ-DROLLERY # 1201

Soviet IS aspects appear to have been dead for about a year; seemingly straight ADM case, being examined, however.

b. UJ-DROLLERY # 1202

As a result of changes in organization, in the AFI and the ADM, source now is in the press office of the Minister President of the DDR, value of which is being examined.

c. UJ-DROLLERY # 1212

(\*) GAIFF penetration, dropped because of political incrimination of source; occasional contact being maintained.

d. UJ-DROLLERY # 1213

(\*) Case pending. Source was described as a communist agent in UJ-DROLLERY #1209.
