4. Our dealings with SECEN have [Redacted] concerned Croatian nationalist activities abroad

[Redacted] He plans a trip around the middle of June, after which we hope to debrief him on emigre organizations and activities, particularly those with terrorist leanings or communist affiliations, in North and South America.

5. While we have not prepared a formal memorandum of all of our contacts with SECEN [Redacted] the officer involved [Redacted] can be made available to brief your officers on the basis of his notes. We will also be happy to service any requirements you may have at our next meeting with SECEN. We would recommend against joint handling of SECEN at this point because he has expressed his fears that any revelation of his contact would discredit him with the emigres with whom he works and he has stipulated as a condition for his continued cooperation that the number of persons involved with him or witting of his cooperation be held to an absolute minimum.
