6 November 53

1. Reference CIC Vienna report AR V 36311, Subject as above, dated 19 August 1953.

2. We are particularly interested in determining, insofar as possible, the basis on which Subject made allegations of enemy intelligence connections of personalities mentioned in the report. It is realized that subject report was obtained through Austrian police channels, but it is presumed that Subject could be approached directly if he is still in the area.

3. We would like to have our basic interest buried by asking Subject to provide details substantiating his allegations of enemy connections of several of the people mentioned in the report (i.e., how does CVRK know - from whom, under what circumstances, did he hear of these connections), but for your information only we are especially interested in all possible details Subject may be able to provide regarding the alleged activity for the RIS of Erich WANDT, reportedly residing in Munich. Can Subject name anyone else who might know more about WANDT (assisting in identifying him) and his RIS connection?
