 We note with interest a report from POE on subject because it came at a time when we received a report from CAR A*A also allegedly coming from subject. MENNIMICH is very active in the Fonn area again and Claus Jacobi, <u>Spiegel</u> correspondent who is planning a derogatory article on his activities, has spent considerable time and effort observing him. Jacobi has uncovered a few interesting facts which are listed herewith. (a) He peddles his information to the Yugoslavs at a price of DH 2,000 monthly. (b) He often gives his reports to hansfeldiof the <u>Praifurter Rundschau</u> for an unknown price. (c) He chancellery as "Dr. Zahn". Jacobi claims that he has observed Globke coming out of his office greeting "Herr Dr. Zahn" and taking him back into his office even though other people had arrived earlier and were waiting to see Globke. Jacobi believes NENGWINCH has convinced Globke he has a good source in the U.S. High Commission. μAND

2. To this we would like to add the following. ZHCH-NENTWICH was passing information to the CARLANA organization in 1952 which in turn was passed to us. These reports consisted of information on alleged methods well blaced source and Tschukow. The information was allegedly received from a well blaced source at HICOG. At that time we checked with an Reber and found that it was true, that he had seen Tschukow, but the subject matter of the discussion as reported by NENNINICH was completely fabricated. We believe that ZECH-HENNHICH knows a German employee at HICOG who passes no secret information to him but apparently tells of some of the novements of the Wigh Counissioner and the senior members of HICOG. On the basis of these movements it seems ZECH-NENNICH prepares rather clever reports which he peddles to the rich intelligence market here in Bonn.

3. We discussed this matter with build be build have and are in the process of obtaining considerably more material on subject and his activities. Incidentally, wacobi also claims that ZDCH-NEADTWICH is in close contact with a ZIFFER agent and he allegedly also receives funds from ZIFFER.

4. Attached hereto is one of the latest reports issued by subject. It concerns itself with Hendes-France and the political situation in France. It was obtained by CAR WANA from Frankfurter Rundschau sources. Subject claims this report is based on a dispatch which von Etzdorff of the Jerman Foreign Office transmitted to Hallstein. An identical report was shown to the undersigned by
