Dear John,

Ray Cline asked me to get in touch with you and pass on our reaction to your manuscript that you left with him. Ray's analysts have looked over the manuscript and agree with its general conclusions. They also consider that it brings information together in a form that should be useful for non-specialist readers.

If you wish to discuss the manuscript further and obtain more specific comments on it, one of our officers can be made available to discuss the subject at your convenience when you are in Washington.

Kind personal regards,

Stanley J. Grogan
Assistant to the Director
