

Mr. Colby:

The list provided us by Security of tape recordings made over the years indicated the time of the taping and the identify of the meeting participants if they knew these facts.

In typing up the attached list, I did the following:

When Security's list indicated only the time, I checked the calendar sheets and added the name of the person indicated as having been with the DCI at that time. Each of these has asterisks (\*\*) to indicate that I assume this to be the person recorded.

When Security's list gave the time but the calendar sheet was so unclear that I could not come up with the identity of the person with the DCI at that time, I put an asterisk (\*) that I could not determine the identity.

In some cases, Security's list gave no time, so I could not determine which appointment was recorded. This is also indicated by an asterisk (\*) indicating that the identity of the person could not be determined.
