MEMORANDUM FOR: Director of Central Intelligence

THROUGH : Mr. William E. Colby *WEC*

Mr. Colby advised me that [redacted] (b)(3) had called the Office of the Director in line with the Director's memorandum to all employees dated 9 May 1973, requesting all employees to report activities which might be construed to be outside the legislative charter of the Agency.

[redacted] (b)(3) is employed as a GS-5 clerk in the Cable Secretariat. He joined the Agency in September 1967 and worked in the Office of Security for 3-1/2 years before transferring to the Cable Secretariat in 1970.

While in the Office of Security he was assigned to a support desk, SD3. [redacted] (b)(1) [redacted] (b)(3)

[redacted] During his assignment to this desk, [redacted] supported a project entitled SRPOINTER-HTLINGUAL. [redacted] described the project as follows. The Office of Security New York Field Office had a unit at the JFK International Airport that photographed mail going to Soviet Bloc countries. This work was done by Agency staff employees. The mail was placed in bags by the regular Post Office employees and stacked. After their departure for the night, the Agency employees would open the mail and photograph it. Both incoming and outgoing mail, including postcards, were photographed. A watch list was maintained and priority was given to the names listed, but generally all mail was processed. (b)(3)

The results of the operation were sent to Washington Headquarters where they were handled by [redacted] He would receive a teletype (b)(3) advising him of the registry number and the number of items. He would check to see if the number of items received was correct and route the material to the appropriate offices. Generally about 1/4 of

the material was separated into bundles bound with rubber bands. This portion was sent to TSD for technical processing. The remaining material was sent to the CI Staff, [redacted] (b)(3)

About twice a month the CI Staff would add names to or delete names from the list. [redacted] would send the changes in the list to the field office. The watch list was made up primarily of foreign scientists and students who were in the United States. When [redacted] left the Office of Security in 1970, the project was still active. (b)(3)

[redacted] was in no way emotional or belligerent. He presented the facts quickly and clearly and said he had no other information. He stated he would have come forward with the information sooner but he had only recently had time to read the Director's memorandum. The writer thanked him for his interest. (b)(3)
