

19 June 1975

MEMORANDUM FOR THE RECORD

SUBJECT: MHCHAOS

1. I called Dick Ober today to tell him that the Director had received a copy of his June 18 letter to the Vice President about the Rockefeller Commission report. I told Ober he might want to consider elaborating his concerns about the conclusions in that report dealing with CHAOS. Neither the Agency nor the Director is requesting that Ober elaborate his concerns but the option is his if he wants to exercise it.

2. Ober said he would think this over. He pointed out that he had never been advised of how the Director had described the project in his 24 December 1974 report to the President. I told him the Commission's findings were much more apt to have relied on the very extensive digging they did internally here in the Agency.

  
E. H. Knoche

Assistant to the Director
