REMARKS  
 1-2: Forwarded per your request of 7 May to identify operations that are not clearly within CIA's "charter". All of these operations have been levied on us by the Directorate of Operations - those of para 3 have been accompanied by assurances of approval by the (then) DCI.

MEMORANDUM FOR THE RECORD

SUBJECT: Summary, Special Programs Division (SPD),  
Office of Communications, Operational  
Contacts with Other U.S. Government Agencies

1. Prior to 1969 the OC COMINT intercept unit, which was then in Miami, had relatively frequent contact with the Miami bureaus of the FBI and FCC, Miami Police and the Miami Beach Police. The staff provided support to these activities in monitoring, identification and DF of specific illegal agent transmissions conducted by foreign nationals and American citizens in the greater Miami area. Arrangements for this support were made through the DDO's Chief, WH, Miami.

2. In late September 1972, NSA, through Division D/DDO, requested that the Special Programs Division initiate a hearability survey of certain HF long-distance commercial telephone circuits between the U.S. and South America. The circuits carried drug related long-distance calls of interest to the BNDD and other U.S. agencies. Because of the availability of personnel and technical capabilities,

[REDACTED], where the circuits could be satisfactorily intercepted. On 15 January 1973, formal NSA tasking of the intercept was instituted. On 30 January 1973, all coverage was terminated by Division D because of possible legal complications.

3. The Chief and Deputy Chief, SPD and SPD/Special Electronic Operations Branch have been engaged in informal technical liaison with operating components of the FBI for a number of years. Initial contacts and arrangements for support of specific activities have been made by the Division D/DDO. Support has been provided in the form of

exchanges of technical information on techniques, technical assistance and training, and the loan of Agency equipment. In the past several years, support has been rendered to sensitive FBI projects MOHAWK, UNION and WUGRAVEL. Support has been and is presently being given to FBI projects ORKID and ROSE. These projects are described in the attached sealed envelope.

4. An operational test of an NSA-developed HF/DF system was jointly conducted by NSA, Division D/DDO and OC-SPD personnel in the early part of the summer of 1972. A location in Miami Beach, Florida was selected for the tests because of similarity to the actual target site and environment in Saigon. Receiving antennas were placed on the roof of the hotel being used as the receiving/DF site. A hotel employee asked why the materiel was placed on the roof. A team member in effect told him that the group was an advance security segment for the Democratic National Convention. No further questions were asked; the tests were completed and the equipment was returned to the Washington area.

Chief, Special Programs Division, OC

~~SENSITIVE~~

9 May 1973

- MOHAWK - Electronic survey of the present Soviet Embassy. This operation was terminated approximately two months ago. SPD/SEO personnel participated for two days.
- UNION - Radar flooding of the cipher device employed by the Spanish Embassy on their diplomatic communication link. SPD/SEO support terminated two years ago.
- ORKID - Electronic surveillance of the new Soviet Embassy, Washington, D.C. SPD/SEO involved only in planning at this time, (attendance at two meetings).
- ROSE - Electronic surveillance of the Soviet Consulate, San Francisco. SPD/CMT personnel performed an electronic search of the consulate area and SPD/SEO personnel conducted a spectrum search/recording of the spectrum covering .1 to .6 GHz during the period 16 to 20 April 1973. Plans call for continued support by SPD in the future as requested.
- WUGRAVEL - Division D operation involving a French code clerk. SEO provided equipment, trained case officer in use of device and stood by in Mayflower Hotel, Washington, D.C., to back up case officer if needed. The operation took place in July 1972.
