13 January "Suggestions"  
*(made by DCI to the Commission)*

-- Endorse New Legislation

- a. Add the word "foreign".
  
- b. Within the U.S., CIA will not engage in any policy-type operation or activity. . . or any domestic intelligence operation or activity, (provided we can protect our installations, investigate employees and applicants or others granted access to sensitive Agency info, and that we can pass info collected abroad to domestic agencies).
  
- c. Executive oversight appears sufficient, but Commission should assure itself.
  
- d. Congressional oversight arrangements are up to the Congress to decide. We will adjust, but secrets must be protected.
  
- e. Need to strengthen legislation to protect secrets. Hope Commission will endorse our proposals.
